VENDOR CHOICES (Please list the names of the companies & corresponding page identification letters*):

Remember to account for the four page cover. All pages are full color. It is possible to place product on the inside covers and outside back cover, too. A sixteen page catalog could display up to fifteen vendors. It is not mandatory to determine the order of pages. We will send a mock-up of your catalog. If you would like to determine the order of pages, please let us know.

**Page identification letters are located at the bottom right of each page image on the website. If you are using a page from a previous year, please identify the year.*
